

You can save their lives

vets beyond borders
A world of better health for animals & people

- Rabies is a deadly disease that affects the lives of many people and animals.
- The main cause of rabies is the bite of a rabid dog.
- Half of all dog bites and human rabies deaths occur in children.
- Although rabies is almost 100% fatal, it is also 100% preventable.

We can all help to keep the people and animals in our lives safe from rabies

Learn how to behave around dogs to avoid dog bites

If you are bitten, wash the wound with soap and running water, and seek medical help immediately

Vaccinate your dogs regularly – this is the best way to prevent rabies

Save the lives of your loved ones, both humans and animals, by learning the facts and sharing them–
